

SX Series

Wall Speaker

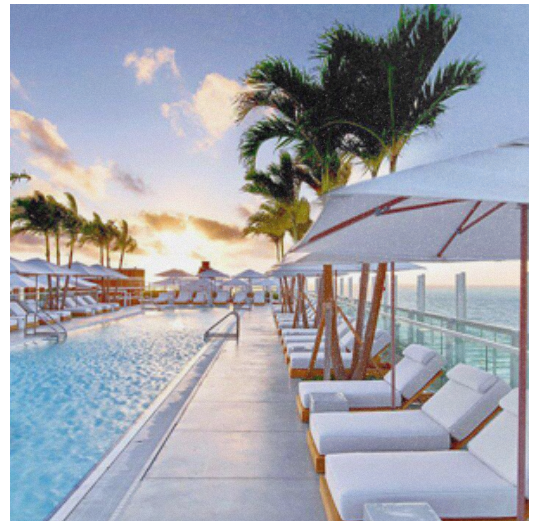

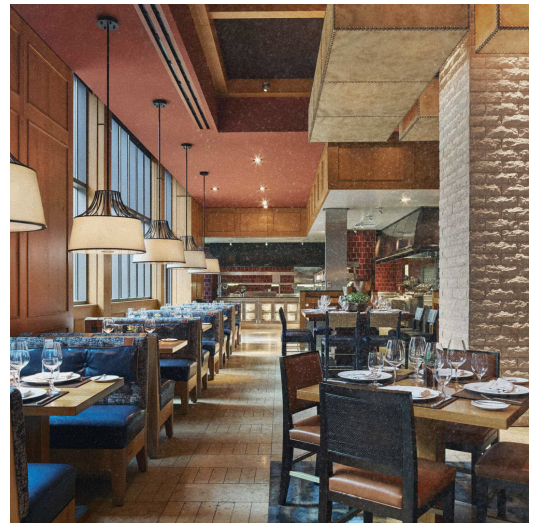

8 OHM 70 VOLT 100 VOLT

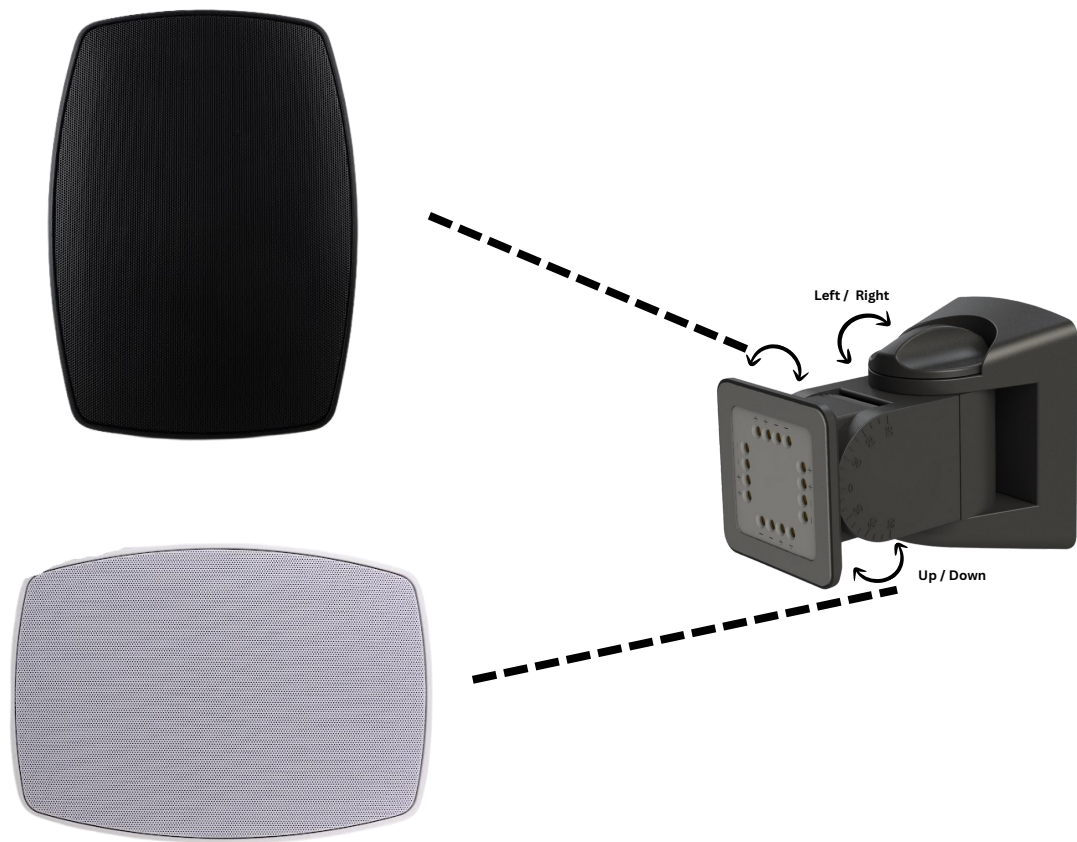

Description

OWI's new weatherized SX Series Wall Speakers available in 3 different sizes. With unparalleled sound quality and durability, these weatherized wall speakers are a versatile choice tailored to compliment both residential and commercial environments. Engineered with adjustable power settings, these speakers allow for precise optimization, ensuring it operates at peak performance levels while safeguarding against potential damage. Whether enhancing the atmosphere of retail spaces, restaurants, or spas, its robust construction promises reliability and longevity in any setting. Elevate your audio experience with the SX Series, where exceptional sound meets uncompromising durability. With a remarkable fast install bracket, the speaker clips in and holds firm to the wall or ceiling and can be mounted either vertically or horizontally.

This 2-way speaker comes in three available sizes: 4.5 , 5.25, and 6.5 inches. The three speaker sizes are interchangeable with the singular bracket, making upgrades easy.

The unique bracket allows for easy, flexible installation for a vertical or horizontal configuration that can be easily adjusted. In addition, the bracket allows slight adjustment on both planes: to turn left and right, to go up and down.

One snap in bracket, three speaker sizes: easily switch between the interchangeable speaker heads on the bracket.
