

AMP04TRP - Amplified Trumpet Speakers

Self-Amplified Trumpet Speakers are the clear alternative to the outdated horn speaker design. Delivering up to 40 watts of class AB power directly to the speaker, each powered speaker can drive three additional non-powered speakers. 60-foot throw, 120-degree horizontal and 90-degree vertical dispersion. Weatherized, the trumpet speakers have a black or paintable white ABS plastic enclosure, aluminum grill and a unique "C" bracket for wall, ceiling or pole mounting.

Features:

- 40 Watts.
- Includes UL Listed 15V DC Level 5 power supply.
- Sensitivity 90dB
- Dispersion coverage 120 degrees H x 90 degrees V.
- Colors: black or paintable white.
