and Accessories

# L.A. ROCKER™

**OUTDOOR POOLS**

L.A. Rocker rock speakers are realistic recreations of rock patterns, colors and shapes. Every hand-painted rock speaker is made in the USA of glass fiber reinforced concrete that is cured for 25 days. L.A. Rockers are UV-resistant, bug, puppy and lawnmower proof and can withstand hundreds of pounds of standing weight. For added security, they have a built-in security cable attachment ring. The speakers carry a 5 year warranty and sound just as great as they look!

## L.A. ROCKER™ ROCK SPEAKERS

Incorporating the geographic characteristics indigenous to various locales throughout the United States, OWI has developed a unique, colorful and lifelike assortment of L.A. Rocker Loudspeakers, designed to embellish a wide array of landscape settings from a customized atrium or hotel courtyard to a backyard garden. The L.A. Rocker is seldom seen yet always heard with unprecedented clarity and acoustical accuracy because it blends perfectly to its surroundings.

Careful attention toward detailed, re-creations of rock patterns and colors, L.A. Rocker rocks require a curing time of approximately 25 days and are hand painted to maintain a look of individuality. No two L.A. Rockers are exactly alike.

OWI has 8 rock speaker casing models and you also have a choice of putting an 8  $\Omega$  or the 70 V speaker. Our weatherized speakers provide quality sound performance. Subwoofer models are also available. The weight of these rocks varies from 25 pounds to 200 pounds.

Designed and constructed in the USA, each rock is made from Glass Fiber Reinforced Concrete (GFRC) and withstands hundreds of pounds of standing weight. L.A. Rockers are UV resistant, bug, puppy and lawnmower proof and have a built-in security cable attachment ring for anchoring the rocks on concrete. In residential applications, the weight of the rocks is enough to keep it in place.

## BOULDER ROCK

### Boulder Rock (BR-8)

Weight: 90-120 lbs.

Size (LxWxH): 43 x 24 x 21"

\*Colors: B, G, GR, SS

### Jurassic Log (JL-8)

Weight: 80-120 lbs.

Size (LxWxH): 33 x 27 x 17"

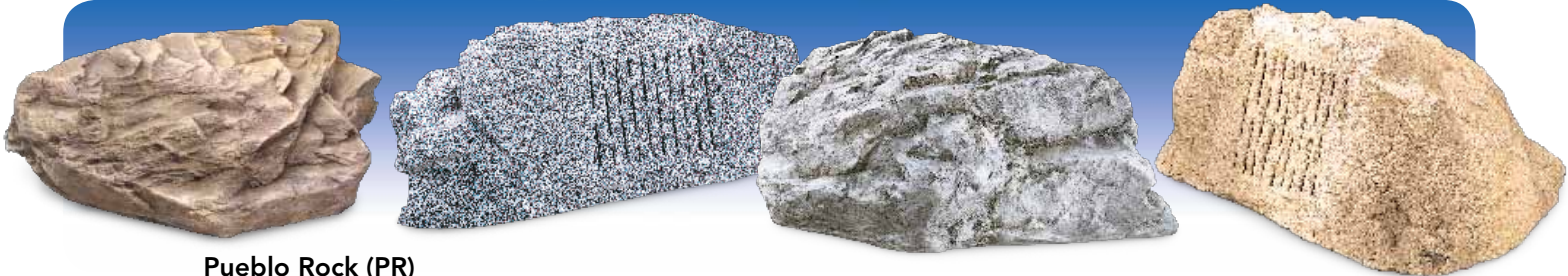

Jurassic Log Color:

Aged/Burnt Wood

## JURASSIC LOG

## PUEBLO ROCK

### Pueblo Rock (PR)

Weight: 45-50 lbs.

Size (LxWxH): 31 x 16 x 11"

\*Colors: B, GR, G, SS

### River Rock (RIV)

Weight: 30-45 lbs.

Size (LxWxH): 23 x 21 x 11"

\*Colors: GR, SS

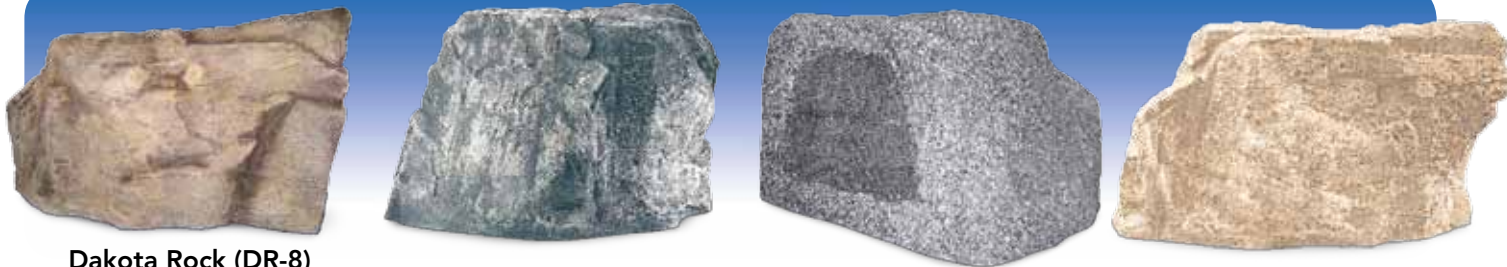

## RIVER ROCK

\*Color Legend: Brown (B), Grey (G), Granite (GR), Sandstone (SS)

# DAKOTA ROCK

## Dakota Rock (DR-8)

Weight: 60-85 lbs.

Size (LxWxH): 28 x 19 x 15"

\*Colors: B, G, GR, SS

# MESA ROCK

## Mesa Rock (MR)

Weight: 34-45 lbs.

Size (LxWxH): 23 x 16 x 10"

\*Colors: B, G, GR, SS

# REEF ROCK

## Reef Rock (RR)

Weight: 35-45 lbs.

Size (LxWxH): 17 x 16 x 11"

Reef Rock Colors Only:

Black (B), Coral Gray (CG), Red (R)

# LITTLE ROCK

## Little Rock (LR)

Weight: 25-40 lbs.

Size (LxWxH): 16 x 14 x 10"

\*Colors: B, G, GR, SS

# SUBWOOFERS

## Boulder Rock Sub (BRTSUB1)

Weight: 90-120 lbs.

Size (LxWxH): 43 x 24 x 21"

\*Colors: B, G, GR, SS

## Jurassic Log Sub (JLTSUB1)

Weight: 80-120 lbs.

Size (LxWxH): 33 x 27 x 17"

Jurassic Log Color:

Aged/Burnt Wood

## Dakota Rock Sub (DRTSUB1)

Weight: 60-85 lbs.

Size (LxWxH): 28 x 19 x 15"

\*Colors: B, G, GR, SS
